UC3M Typst Report Template Documentation

The intention of this documentation is to provide a deep understanding on how this template works to ensure the user can do a good use of it and modify it as they wish.

The config file: `uc3mreport.typ`

- conf()

conf

Main configuration function.

Parameters

```
conf(
  doc: content ,
  degree: str ,
  subject: str ,
  year: array ,
  authors: dictionaty ,
  project: str ,
  title: str ,
  group: int none ,
  professor: str ,
  team: str none ,
  language: str ,
  toc: boolean ,
  figure-spacing,
  logo: str ,
  bibliography-content: content none ,
  appendixes: content none ,
  chapter_on_new_page: bool
) -> content
```

---

doc `content`

Document contents

---

degree `str`

The degree your are enroled in

Default: `""`

---

subject `str`

The subject the report is for
